

2-Dimensional Design

Mr. Waterfield

9th Assignment

Mixing Textural Techniques

Create an interesting design using the three techniques of textural representation that we have experimented with so far: print, rubbing and drawn. Subject matter is up to you, but keep in mind that the more time and effort you put into your design, the better it will look (and the better your grade will be.)

- Also, be mindful of good tonal values and contrast when making your designs.
- Use a format of 10 inches tall by 12 inches wide for the image area. Mount to foamboard with a 1/2" border all the way around.
- Achromatic.
- Due at the beginning of next class period.
