

10th Assignment

Designing with a Single Texture

- A. Find a single textured surface and create a design using it as a print.
- B. Create a design using a single texture as a rubbing
- C. Create a drawn design focusing on the texture of a single object.

Each of the three can be a pattern or a design (non-repetitive). Each one should be executed in our 8" x 10" format, mounted to foam-core with a 1" border all the way around for a finished size of 10" x 12". Achromatic.
